

Starfish Homework Grid: Autumn Term 2016/17

5 Points	10 Points	20 Points
Use recycling bin materials to make a model or sculpture.	Make a game from a cereal box Dice make a great math game – try using two or three dice	How many cups can you fill from a big lemonade bottle?
Science experiment: Flying tissue paper What you need: tissue paper/scissors/a comb Activity Cut the tissue paper into squares of 2cm by 2cm. Run the comb through your hair about 15 times. Immediately hold the comb directly above the tissue paper and watch the paper fly!	Ice: Liquid – solid – liquid. Freeze ice overnight. Once frozen talk about the temperatures that are needed to freeze a liquid to a solid. Put one ice block into a glass of water and one onto a cloth on the bench. Which one melts faster and why?	Science experiment Melting chocolate: melt chocolate and butter. Watch the butter and the chocolate melting together. Try using this in chocolate mousse/rice crispy cakes Melting cheese: Turning cheese into a liquid can be quite fun and rather messy so be prepared! You can choose to use this in a recipe such as the Swiss cheese fondue or just create it for the sake of science. Grill a slice of bread on both sides then sprinkle with shredded cheese. Watch the cheese melt with the heat of the grill.
Help sort out socks into pairs. Help lay the table for tea.	Pack a small suitcase for teddy to take on holiday.	Make a number book-What numbers can you see around you/ when you go shopping?
Visit a library and choose some books.	Make a birthday/thank you card for a friend.	Make a shopping list to take to the supermarket. Tick off the things when you put them in the trolley.
See how quickly you can get dressed and clean you teeth.	Learn a new song/nursery rhyme	Make a map to show how to come to school/go to the shops.
Look at a newspaper/magazine. How many sounds can you recognise/read ?	Make your own sound book.	Make a book to show how to look after a pet.
